At the Center of Progress for Care

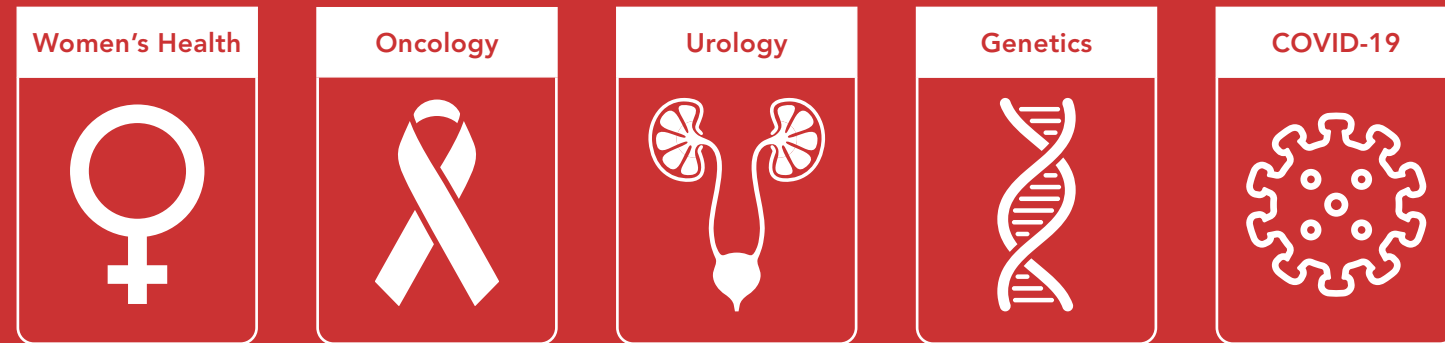

BioReference Laboratories, Inc., is the largest full service specialty laboratory in the United States that delivers reliable, convenient and innovative diagnostic solutions tailored to the specific needs of healthcare providers, patients and organizations. BioReference is a trusted laboratory partner for ACOs and IPAs, with a vision to provide high quality, personalized diagnostics to all patients.

BioReference Difference

- Currently serving many of the largest ACOs in the United States
- Serves approximately 19 million patients annually
- In-network with the largest health plans in the United States
- 11 laboratory locations across the US, and vast network of patient service centers
- Medical staff of more than 300 M.D., D.O., Ph.D., genetic counselors and other professional clinical and scientific personnel
- More than 35 Board-Certified clinical pathologists available to provide answers or guidance when you need it
- Customer Service open 24 hours a day, 7 days a week and 365 days a year
- CLIA Certified and CAP Accredited
- Scientific excellence ensured by strategic investments in emerging laboratory technology

Comprehensive Test Menu

BioReference offers unparalleled expertise based on a 40 year legacy of proven science and a comprehensive test menu, from clinical routine to esoteric assays.

Connectivity and Analytics Solutions

The value of connectivity and laboratory analytics is immeasurable in population health. BioReference offers connectivity solutions that close the gap between data and diagnosis.

InSightDx: Cloud-based Ordering and Reporting

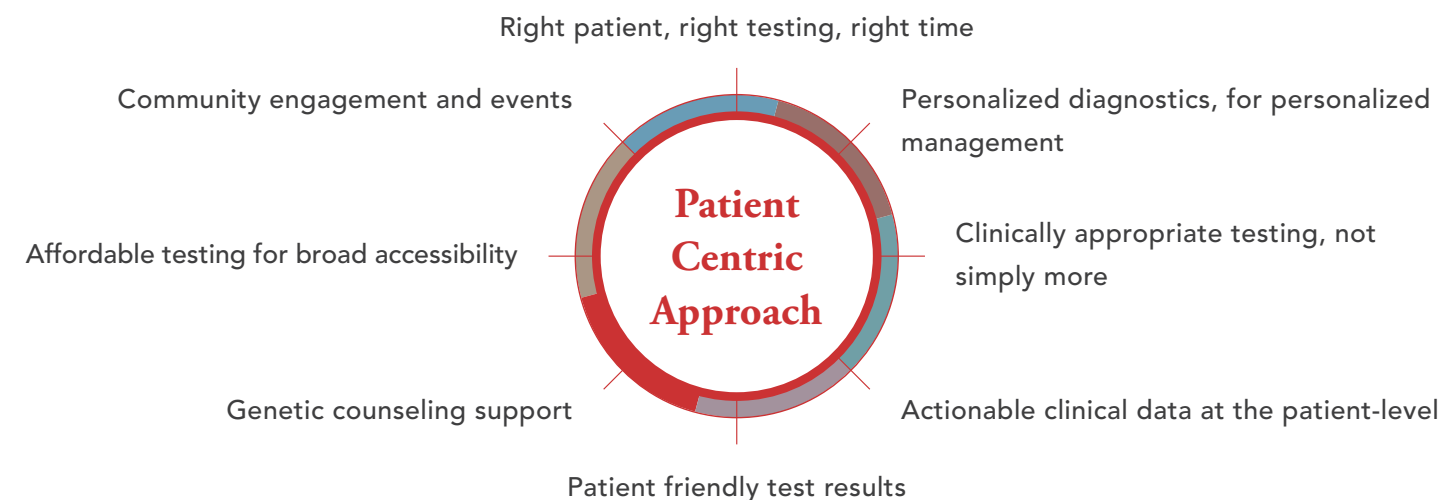

- Streamline office workflow using a simple online ordering system that can integrate with EMRs or practice management systems
- View patient results easily and promptly from any device, anywhere with cloud-based technology
- Keep pulse on practice information and manage at-risk patients with test utilization and cumulative reports

Global CareIndex: Advanced Laboratory Analytics

- Help ensure consistent care across your network with the ability to generate, compare and analyze laboratory results from patients tested at multiple locations
- Manage the frequency of office visits for sick and at-risk patients utilizing detailed patient reports that include past abnormal results
- Evaluate patients with the potential for developing multiple chronic diseases and track progression across multiple conditions with cumulative reports
- **NEW** COVID-19 Dashboard gives an aggregate look at: test positivity rates, total number of tests, pending tests, demographics, and laboratory location

Scarlet Health: On-demand Specimen Collection Services

- Delivers an innovative, mobile alternative to traditional patient service centers when phlebotomy and other specimen collection services are needed
- Offers easy technological integration with existing clinical systems and processes to increase access speed to vital patient diagnostic information
- An extension of BioReference, Scarlet's highly trained and reliable health professionals ensure a quality patient experience, whether specimen collection is performed at home or in the place of employment

Featured Testing

BioReference offers the 4Kscore, a blood test that combines four prostate specific blood biomarkers with clinical information, in a validated algorithm, to indicate a patient's risk of aggressive prostate cancer.
