

**BioReference® Health, LLC** is excited to announce a new collaboration with **Natera™**, a global leader in cell-free DNA testing and women's health diagnostics. Together, our organizations are combining expertise to expand access to gold standard reproductive genetic testing for patients across New York and New Jersey.

By uniting BioReference's comprehensive clinical laboratory capabilities and trusted provider relationships with Natera's unparalleled expertise in reproductive genetics, we are positioning our organization—and yours—for the future of precision medicine.

Through this collaboration, we will offer:

- **Improved access** to advanced prenatal screening solutions for women across New York and New Jersey.
- **Comprehensive diagnostic offerings**, integrating BioReference's clinical and women's health laboratory services with Natera's expertise in reproductive genetics, including Panorama™, Natera's best-in-class noninvasive prenatal testing (NIPT) and Horizon™ carrier screening offering.
- **Local service with national expertise**, helping ensure providers and patients have both convenience and confidence in their care and treatment path.

For healthcare providers, this means a more seamless experience in ordering, reporting, and interpreting reproductive genetic tests—supported by both BioReference's local commitment and Natera's innovation. For patients, it represents expanded choice, accessibility, and peace of mind during one of life's most important journeys.

BioReference and Natera are proud to bring this collaboration to you and your patients, reinforcing our shared commitment to delivering **smarter, more personal, and more informed care** for your patients.

Your BioReference representative will be reaching out shortly with more details about available tests, ordering processes, and support resources.

Thank you for your continued trust in BioReference. Together with Natera, we are proud to deliver the future of reproductive genetic testing--today.

Sincerely,

Scott G. Montgomery
