Test	Result	Abnormal	Reference	Units	Rpt Date	Prior Result	Date
ptau181	0.325		0.323-1.910	pg/mL	02/05/26		

INTERPRETATION OF RESULTS FOR ELECSYS PHOSPHO-TAU (181P)

Result(pg/mL)	Interpretation	Comment
<or=0.722	Negative	A negative result suggests a reduced likelihood that cognitive impairment is due to amyloid pathology; alternative causes should be considered. Interpret with clinical findings.
>0.722	Positive	A positive result is not diagnostic of Alzheimers disease and may not correlate with amyloid PET findings; further clinical evaluation is recommended. Interpret with clinical findings.

Final Report
